Tu maravilloso cerebro está compuesto de 100 mil millones de

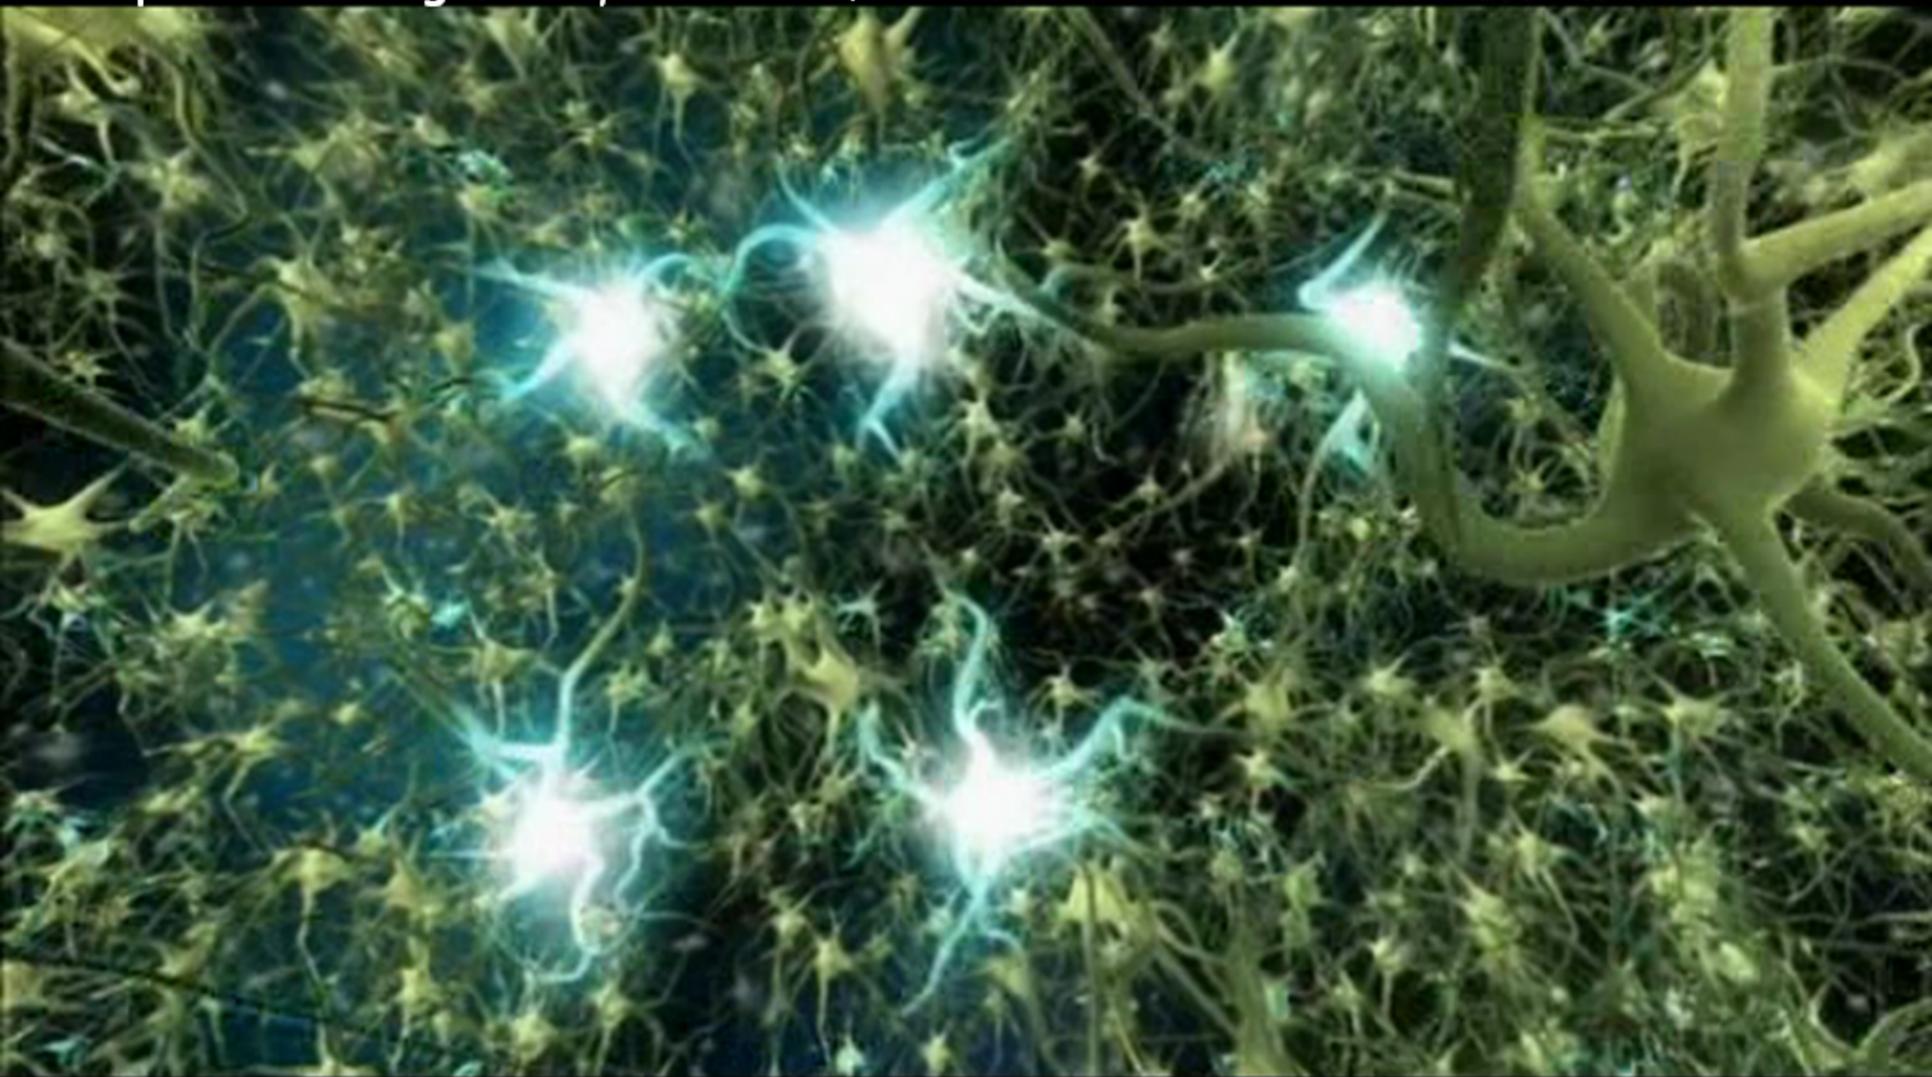

minúsculas células nerviosas llamadas "neuronas".

Estas neuronas tienen ramas diminutas que se extienden y se conectan

con otras neuronas (sinapsis) para formar una red neuronal.

Fisiológicamente, las neuronas que se disparan juntas, se conectan.
Si practicas algo una y otra vez, esas neuronas tendrán

una relación a largo plazo (redes neuronales).

Percepción Espiritual

(energía):

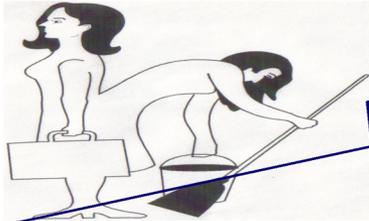

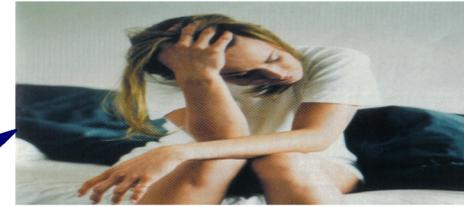

Origen- Espíritu, cuerpo
energético 'astral'.
